Father's Day Luncheon!

Father's Day is a special time to celebrate all the dads. At Cabot Cove, we have the best! On Father's Day last month, we had a special luncheon consisting of Flank Steak & Bacon wrapped Shrimp! The kitchen also whipped up Julien Potatoes & the peanut butter pie was the best! The dads all had a great time. Thank you to the family members that came out to celebrate with us!

Lewis & John enjoying every bite!

What is a Dad?

A dad is someone who wants to catch you before you fall but instead picks you up, brushes you off, and lets you try again.

A dad is someone who wants to keep you from making mistakes but instead lets you find your own way, even though his heart breaks in silence when you get hurt.

A dad is someone who holds you when you cry, scolds you when you break the rules, shines with pride when you succeed, and has faith in you even when you fail.

-Unknown-

Tom & Kathy at the Father's Day Luncheon! Thanks Kathy for sharing the day with us!

Lunch @ Cheddars!

Lynn, Debbie, Yvonne & Blanche at Cheddars!

Lunch & shopping is generally a favorite pastime for the ladies, & at Cabot Cove that is no different! The residents enjoy shopping trips & lunch outings every month. This month we are going to Dollar General & The Burlington Store. For our lunch outings we are going to Santa Fe Mexican Restaurant & Roosterfish! Family is always welcome to join us!

Ann & All of Her Creations!

Elizabeth Erickson, who likes to be called Ann, was born in Huntington, PA on November 30th, 1932.

Ann had two brothers. She married Skip Erickson on April Fools' Day in 1953! They have two sons, Bill & Steve.

Before she began her family, Ann joined the Army and was enlisted for three years. She received an honorable discharge in 1953.

After raising her sons, Ann worked in banks as a teller & also in a dentist office. She moved to Florida from Illinois in 1989.

Ann is a wonderful addition to our Cabot Cove family! She enjoys all of the activities organized by the Activity Dept. She loves Arts & Crafts, and displays all of her creations all around her room. She is very patriotic & loves the colors red, white, & blue! And of course hot pink!

Ann with one wall filled with her creations! There is more!

Ann with her windowsill display! Awesome!

Ann & her daughter-in-law Maria, just hanging out!

Cabot Cove Ducklings!

Key Nesting Habits

Site Fidelity: Female ducks have an instinct to return to areas where they previously had successful hatchings, ensuring they already know the local food, water, and predator escape routes.

Nest Construction: Ducks rarely reuse the physical nest from the previous year because weather and predators degrade them. Instead, they build a new nest on top of the old one or choose a safe spot a few feet away within the same general territory.

Cavity Nesters: Species like wood ducks, buffleheads, and goldeneyes will reliably return to the same natural tree cavities or artificial nesting boxes every season.

Why This Matters

Because ducks are creatures of habit, this homing instinct improves their overall survival and breeding success. Community consensus and wildlife experts confirm that successive generations of the same duck family will often visit and nest in familiar backyards and creeks for many years.

Yvonne, with Bree & Akira, holding one of the ducklings! So cute!

Release Day!

This will be the second hatchling this year in our courtyard! We've had several hatchlings over the years here at Cabot Cove. A big thank you to Sheryl & her husband Joe for rehoming them in the pond next door at the apartments.
